

# School of Computing RESEARCH ETHICS COMMITTEE

# APPLICATION FORM FOR ETHICAL REVIEW OF A RESEARCH PROJECT INVOLVING HUMAN PARTICIPANTS WHICH IS IN THE CATEGORY OF NOTIFICATION ONLY

There are 3 generally accepted levels of ethical review for projects carried out in a University or similar setting. These are notification only, expediated and full committee.

This notification only level of review is to approve relatively low-risk research involving human participants, primarily using social science methodologies in which any personal information collected is not of a sensitive nature. The School of Computing Research Ethics Committee has been delegated responsibility by the University to approve ethics submissions from undergraduate and taught Masters projects only, which are in the category of notification only.

Examples of projects in this category include:

- Anonymous surveys in which the topic itself is not likely to elicit significant difficulties for the participants, such as: anonymous internet surveys (e.g. Survey Monkey), street questioning.
- Observation (without audio or visual recording) of public settings where privacy would not normally be expected, such as observing people on streets or at sports events.
- Research carrying no risks beyond those of everyday life (as experienced by the intended participant population), such as asking people's opinions about products or services; asking students about educational experiences; monitoring the impact of daily activities.
- Interviews with public figures, professionals or others in their professional capacity regarding their professional activities.
- Analysis of data (e.g. health records) which have had all identifying information removed by the data holder and been provided to the researcher in accordance with data protection legislation.
- Collection of biological samples which are anonymised and do not require invasive techniques (e.g. hair, nails).

If your project is using data from a public repository like Kaggle or is not generating or using any form of personal data then you do not need research ethics approval, you do not need to complete and to submit this form and your project supervisor should indicate this on the project dashboard.

If your project involves collecting or processing <u>personal data which is of a personal nature</u>, you must first complete the DCU online Data Protection training course and review the <u>"Data Protection – Key Points for DCU Researchers"</u> guidance from the Data Protection Unit to assist you in meeting your legal obligations under GDPR and associated Irish law.

Once you have completed this form (if you need to) you should save it as a PDF file, not WORD, and upload it to the your project dashboard before you start gathering data. It will then be read and assessed by two members of the committee and once two members of the committee approve your submission you will be automatically notified by email and your project can start data gathering.

There are strict deadlines for submitting this form for each class group, undergraduate and taught Masters by which your submission must be made and you will be informed of these deadlines by your course board chair or project co-ordinator. If you do not submit by these deadlines then the research ethics committee is not obliged to approve your submission and when that happens and your project is assessed and graded at the end of the year, you will be awarded 0 for that component of your project.

#### **SECTION 2 – PROJECT DESIGN AND METHODOLOGY**

Research Overview - Please respect the indicated word counts in the following sections and explain all acronyms in full text the first time they appear.

#### 2.1 Provide a brief description of the research (max 250 words):

Please use lay language, include the scientific/theoretical background of study and a justification as to why this research project should proceed in that context

Votegrity is a blockchain voting system designed to enhance the transparency, security, and accessibility of election processes. Leveraging the decentralized and tamper-resistant nature of blockchain technology, the system ensures the voting integrity of each vote cast while providing a secure and transparent platform for users, employs smart contracts to automate and validate the voting process, eliminating the risk of fraud and manipulation. The system prioritizes user privacy and trust, employing cryptographic techniques to safeguard sensitive information and accommodates various authentication and verification methods, ensuring a seamless and accessible voting experience for all users. Participants will be required to navigate through the system and answer a questionnaire on their experiences with the voting process.

#### 2.2 Please state the aims and objectives of the project (max 200 words)

The aim of this project is to create a transparent and secure online voting system, the user's votes will be deployed to the blockchain network where the data will be encrypted and added to a chain of blocks using smart contracts and transactions to verify the votes.

#### 2.3 Please confirm your methods of data collection:

Tick all relevant check boxes and provide details for each one, including any devices used to collect data, and whether the data will be anonymous, potentially identifiable or identifiable at point of collection

Method	Describe briefly
☐ Interviews or focus groups	
⊠ Surveys/questionnaires	<ul> <li>Ask knowledge of technical expertise</li> <li>Ask knowledge of online voting systems</li> <li>Ask overall experience using the system</li> </ul>
☐ Audio/video recordings	
☐ Public observations	
☐ Persons in public office	
☐ Using existing data (incl. secondary data)	
☐ Using human derived material (biological samples)	
☐ Standard tests (educational/personality etc.)	
☐ Standard educational practices	
☐ Other (please specify)	

2.4 Please confirm who the	participants on th	is study will be,	including gro	oup size and
composition:				

Include associated demographic characteristics, and state how your proposed sample size was determined (e.g. power analysis)

The participants will be anyone who accepts to be involved in the testing of the system, participants will be friends, students in CASE, any gender, and over the age of 18. Participants will be chosen as individuals not groups.

# 2.5 Please outline your recruitment process, including where you are sourcing participants from and your criteria for inclusion/exclusion:

Where gatekeepers are involved, outline the procedures relating to their involvement

Participants will be friends and family both from inside and outside the course, Most will be contacted in person or online via social media. Participants will use and traverse the system and answer a questionnaire afterwards. The surveys will be done online through google forms.

2.6 Addressing participant vulnerability – if your participants fall into any of the following categories, please check the relevant tick box/boxes and state below what special arrangements will be made to protect them:

If your portionants or not in any of these seteraries, tiels N/A
If your participants are not in any of these categories, tick N/A
⊠ N/A
☐ Children under 18 years of age
☐ Persons in unequal relationships with the researcher (e.g. lecturer-student, therapist-client,
employer-employee)
☐ People with a recognised or diagnosed intellectual, physical or mental impairment
☐ People confined to institutions (e.g. prisoners, residents in 24 hr nursing facilities)
☐ People who have undergone traumatic or adverse emotional events
☐ People with diminished cognitive ability
☐ Marginalised sections of society
☐ Other (please specify)
Special arrangements:
2.7 Involvement of children under 18 years of age – if your participants are in this category,
please confirm compliance with the following:
If your participants are not in this category, tick N/A
⊠ N/A
☐ We confirm that we have read and agree to act in accordance with the DCU Child Protection
policy and procedures (as per the DCU Child Protection Unit webpage)
☐ We confirm that we have put in place safeguards for the children participating in the research

☐ We confirm that we have supports in place for children who may disclose current or historical			
abuse (whether or not this is the focus of the research)			
☐ We confirm that all requirements will be met prior to commencing the research (e.g. TUSLA			
Children First Training completed, Garda Vetting in place)			

#### 2.8 Please confirm how the results of the research will be disseminated:

Include a statement on whether the participants will be provided with any information as to the findings or outcomes of the project

It is not required to provided the participants on information as to the findings or outcomes of the project unless they specifically ask and provide their contact details.

### **SECTION 3 – ETHICAL ISSUES AND RISK MANAGEMENT**

3.1 Please identify all issues including ethical issues which may arise in the course of this research. What are the potential risks to participants, and how will those risks be addressed or minimised?			
Potential risks can be physical, psychological, social, legal, etc. Please include details of any			
additional support being provided for participants during/after the study			
No ethical issues or risks involved			
3.2 Please identify the potential benefits (direct and/or indirect) to those participating in this research:			
Potential benefits should outweigh the potential risks to participants			
No potential benefits			
3.3 Please describe what measures/protocols you have put in place in the event that there are any unexpected outcomes or adverse effects to participants arising from involvement in the research:			
No measures/protocols required, should there be any unexpected outcomes or adverse effects to			
participants arising from involvement in testing the web application, they are free to leave testing.			
3.4 Do you intend to provide payment or incentives to participants?  Yes □ No ☑  If Yes, please consult the REC Guidelines on the Use of Compensation and Incentives (in the Ethics Resources and Guidelines section of the DCU Research Ethics webpage) before providing additional details below			
3.5 Does this research raise any potential risks for the researchers themselves?  Please consider the location/environment where the research is being conducted, exposure to distressing data content etc.  Yes \( \subseteq \text{No} \times \)  If Yes, please describe further and explain what risk management procedures will be put in place to minimise these risks to researchers:			

3.6 Does this research raise any potential conflict of interest?

Please consider any potential real <u>or</u> perceived conflicts of interest that might influence the integrity of the research, or give rise to bias in conducting and reporting the research, or affecting publication (consult the <u>DCU Conflict of Interest Policy</u> for assistance)

Yes □	No ⊠			
If Yes, please identify and explain the steps being taken to address that conflict:				

#### 3.7 Please describe how the conduct of the research will be monitored:

Regular oversight by the PI is required to ensure the project conforms to the procedures set out in this application (especially where several people are involved in carrying out the research procedures)

The assessor will record how long it takes for users to perform certain tasks. The data of the user's knowledge and experience of using the system will be collected through a questionnaire.

# **SECTION 4 – CONFIDENTIALITY AND DATA MANAGEMENT**

1.4 Canaidaring vaur provious roomanas in agotian 2.2 of the form on data callection, places
4.1 Considering your previous response in section 2.3 of the form on data collection, please confirm whether you are collecting or processing personal data in this research project:
Personal data is any information about a living person, where that person is either identified, or
could be identified from the data itself, or when it is combined with other data. This includes paper
based, electronic and biological samples data. If your data is fully and completely anonymous, it is
not personal data.
Yes ⊠ No □
If Yes, please confirm your compliance with the following by ticking the checkboxes:
guidance on the DCU Data Protection Unit (DPU) website and agree to protect and manage our
data in accordance with same.
☑ We have assessed the degree of risk inherent in the personal data being used in the research
project, and confirm that all DPU GDPR requirements have been met prior to submitting this
application (e.g. completion of Data Protection questionnaire, confirmation that any survey tool
being used is GDPR compliant, that required Data Processing or Sharing Agreements will be in
place, etc.)
4.0 Data access, whose confirm whether especial to northing data is confined to the
4.2 Data access – please confirm whether access to participant data is confined to the nvestigators named on this application:
Yes ⊠ No □
If No, please name who the other individuals are and why they need access. Any proposed transfer of data (including outside of the EU) should be detailed here.
of data (including dutside of the EO) should be detailed here.
1.3 Data storage – please confirm compliance with the following:
☑ Data collected on mobile devices will be protected with a strong password/passphrase at a
minimum, and/or encrypted if the device supports it
☐ Data will be removed from mobile devices as soon as is practicable and stored in a secured
☐ Data will be removed from mobile devices as soon as is practicable and stored in a secured location in DCU (on server or institutional Google Drive)
location in DCU (on server or institutional Google Drive)
location in DCU (on server or institutional Google Drive)  ⊠ Paper based data will be held securely in locked cabinets in DCU, with access restricted to the

#### SECTION 5 - PARTICIPANT INFORMATION AND INFORMED CONSENT PROCEDURES

In addition to completing this form you are required to attach, within the single PDF that you submit, a copy of (1) the Participation Information Sheet which you share with your participants and (2) a copy of the Informed Consent Form which your participants sign.

5.1 Please confirm that the following items have been addressed in your Participant Information Sheet which should be shared with all participants whether it involves online or in-person data gathering:

The items below should be used as headings in yourinformation sheet. Note the language used under each item must reflect the participant age group and corresponding comprehension level— if your participants have different comprehension levels (e.g. both adult and child participants) then separate sheets must be prepared for each set. Templates are available via the <u>REC Forms</u>-Applications, Templates and Amendments section of the Research Ethics website.

Checklist – tick the relevant check box for each item	Yes	No		
Introductory Statement (Researcher names and titles, school, title of the research study)	$\boxtimes$			
What is this research about?	$\boxtimes$			
Why is this research being conducted?	$\boxtimes$			
Why have you been invited to take part?	$\boxtimes$			
What will happen if you decide to take part in this research study?	$\boxtimes$			
How will your data be used?	$\boxtimes$			
How will your privacy be protected (including any legal limits to confidentiality)?	$\boxtimes$			
What are the benefits of taking part in this research study?	$\boxtimes$			
What are the risks of taking part in this research study?	$\boxtimes$			
Can you change your mind at any stage and withdraw from this study?	$\boxtimes$			
How will you find out what happens with this project?	$\boxtimes$			
Contact details for further information	$\boxtimes$			
5.2 Informed Consent Procedures – please confirm whether written consent is to	be obt	ained.		
Please tick the relevant checkbox	, 50 05.	.aoa.		
Yes ⊠ No □				
If Yes, describe the procedures by which written consent will be obtained. If you are involving child participants, you will also need to obtain their written assent. Templates are available via the <u>REC</u> <u>Forms - Applications, Templates and Amendments section</u> of the Research Ethics website.				
Written consent will be obtained by using the google form layout provided below				
If No, describe the procedures regarding how consent/assent will be obtained:				

If you are gathering data from an online process such as Google Form or SurveyMonkey then you should use a page such as the one below, to capture participants' informed consent and your data gathering should not proceed until participants have completed this form with the appropriate answers.

## Participant - please complete the following (by clicking Yes/No for each question)

I have read the Plain Language Statement (or had it read to me) *	I understand I may withdraw from the Research Study at any point *
Yes	○ Yes
O No	O No
I understand the information provided *	I have read and understand the arrangements to be made to protect confidentiality of data, including that confidentiality of information provided is

#### SECTION 6 - SUBMISSION CHECKLIST AND RESEARCHER DECLARATION

# 6.1 Please confirm all required supplementary documentation to be included in this application within Section 7:

Checklist – tick the relevant check box for each item	Yes	N/A
Participant Information Sheet/s		
Informed Consent Form/s		$\boxtimes$
Informed Assent Form/s		$\boxtimes$
Recruitment Advertisement		$\boxtimes$
Questionnaire/Survey	$\boxtimes$	
Interview/Focus Group Questions		$\boxtimes$
Debriefing Material		$\boxtimes$
Bibliography		$\boxtimes$
Approval from another Research Ethics Committee		$\boxtimes$
Evidence of other external approvals (e.g. Board of Management letter)		$\boxtimes$
Evidence of internal approvals (e.g. BSC approval review letter)		$\boxtimes$
Other – provide details here:		

#### **6.2 Signed Declaration**

By submitting this form, the applicant (and supervisor) agree to the following:

The information contained herein is, to the best of my knowledge and belief, accurate. I have read the University's current research ethics guidelines, and accept responsibility for the conduct of the procedures set out in the attached application in accordance with the form guidelines, the <u>REC guidance and resources</u>, the University's <u>Conflict of Interest Policy</u>, its <u>Code of Good Research Practice</u> and any other condition laid down by the Dublin City University Research Ethics Committee. I have attempted to identify all risks related to the research that may arise in conducting this research and acknowledge my obligations and the rights of the participants.

I also acknowledge my requirement to be informed as to other duties and legal obligations applying to my research, and to comply with these duties and obligations – this includes being informed about DCU Data Protection guidelines for researchers, DCU Child Protection policy and procedures (where relevant) and DCU Insurance requirements.

I and my co-investigators and/or supporting staff have the appropriate qualifications, experience and facilities to conduct the research set out in the attached application and to deal with any emergencies and contingencies related to the research that may arise. Research will not commence until required consents and approvals are in place.
